Abstract

Heeeere gooooes my abstraaaaact.

It has many a paragraph.

It's probably not very good.

1. The chapter of beginnings

It's a chapter!

1.1. It has subsections!

They have code in them!

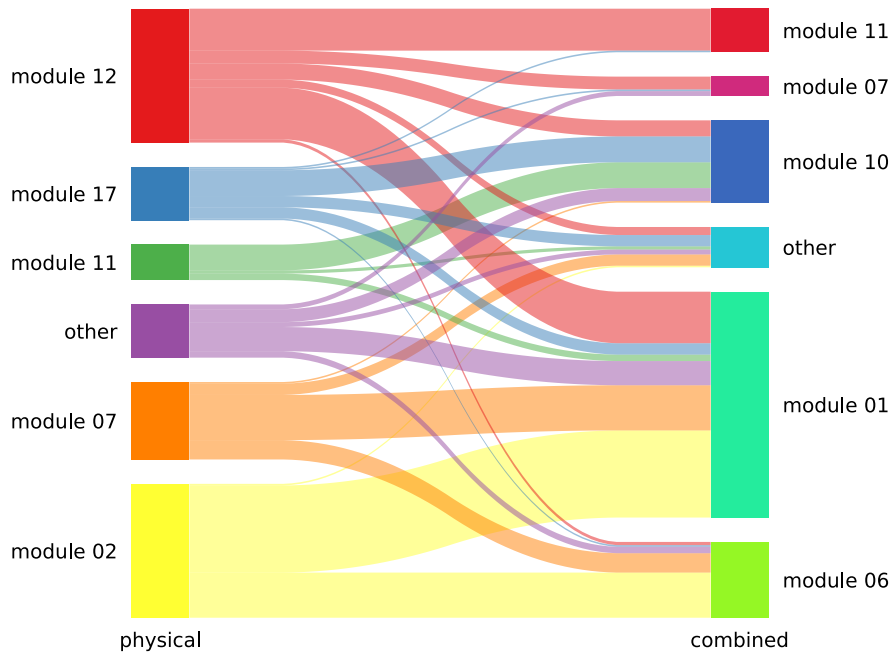

show me the code

```
import random ①  
rand = random.Random() ②  
rand.random() ③
```

- ① Give me random
- ② Make it more random
- ③ Random overload!

2. More chapters

Has images!

things

And **bold text**. And *italics*. Even `monospaced!`

3. Another chapter

Example 1. Block title things

Yep, that's right, it's a block title.

Sidebar things

And a sidebar too!

| column a | column b | column c |
|----------------------------|----------|----------|
| whatever | whatever | whatever |
| and so with line breaks | on | and so |
| and it goes on | and on | and on |

and here

here is some text from a thing

and some linebreaks too

— mr magoo, things

helloo

this also has linebreaks
and
stuff

— mr magoo, other things

3.1. Whatever

As earlier described [1] by [2]

3.2. Time to get weird

Can I do ^{superscripts}?

Here we have some maths $\sqrt{4} = 2$ in the middle of a line. And here, some more

$$\frac{1}{2}$$

Here \rightarrow are \Rightarrow some \rightarrow arrows TM
